DC-12

SUPER-LITE™ 6V & 12V battery tester is designed for fast and accurate monitoring of battery condition. It is equipped with multiple test function such as battery load test, motor cranking test and charging system test.

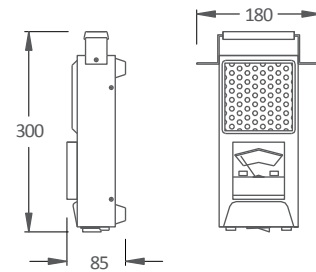

Robust design, light weight and large display are some of the special features that provide user the flexibility of movement and fast judgement when carrying out test. Heavy duty insulated battery clamps are selected to ensure safe and proper application.

features

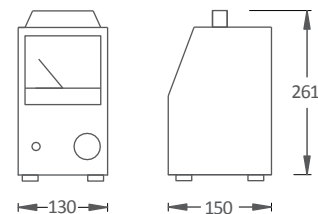

battery rating	6V and 12V batteries
checking parameters	battery load test motor cranking test charging system test
safety features	reverse polarity protection automatic overload cut-off overload alarm (optional)
battery load test duration	10 seconds (maximum)
terminal clips	200Amps high quality clips
